RE: Summary of Community Survey
Date: Feb. 16, 2019

We sent the survey out to the PI listserv. We received 25 responses, including 23 people currently working at RMBL, 12 senior PI's, 5 graduate students, 5 undergrads, and 1 staff person.

The most common comment was to make the campus pet friendly.

Objectives for Campus

In terms of the prioritization of objectives for the campus, this is how people ranked things, from highest to lowest priorities:

- Seasonal housing for staff/research assistants
- Reduce public impacts on Gothic Corridor
- Seasonal or year-round housing for scientists
- Support year-round and winter science
- Permanent housing for scientists
- Integrate RMBL and larger community
- Support scientific collaboration
- Address lack of lab capacity
- Location for high-end equipment
- High throughput processing for molecular techniques
- Community recreation

Strategies to promote integration

This is how people ranked things, from highest to lowest priorities:

- Mass transportation
- Walking/biking trails
- Mt. CB lecture space
- Ease of driving between locations

Design Objectives

This is how people ranked things, from highest to lowest priorities:

- Minimize carbon footprint
- Flexibility
- Improve Gothic bandwidth
- Promote collaboration
- Dark skies
- Lots of bandwidth
- Family friendly

Office space

Other: pet friendly, minimize viewshed impacts

Spaces

This is how people prioritized spaces, from highest to lowest priorities.

Shared work spaces

Small conference spaces

Private offices

Videoconferencing

Lecture space

Research shop space

Research equipment storage

Big conference space

Kid space
