There is a tool shed and work area for the RMBL community that is located North of the Murray building. Scientists have donated tools and/or are sharing their tools. You are welcome to contribute quality tools to the tool shed! Please be respectful and use the sign out / sign in sheet when borrowing tools. If you break something, please replace it. All of the tools and equipment in the shed are not RMBL property and we make no claims to their reliability or safety. Use at your own risk. Scientists, students and the general community will not be allowed access to the maintenance shop in the Gothic town-site. We have had ongoing safety, liability, and missing tools so the decision was made that only RMBL staff will have access to the building.
