About RMBL

The Rocky Mountain Biological Laboratory, founded in 1928 as an independent nonprofit organization, is a biological field station located near Crested Butte, Colorado. Our primary mission is to advance the scientific understanding of nature that promotes informed stewardship of the Earth. RMBL provides scientists and students access to diverse habitats, research and education infrastructure, a collaborative and internationally recognized scientific community, and a broad base of knowledge about the ecology of mountain environments. A deeply understood place and supportive research community make it ideal for training the next generation of field scientists. You can learn more at www.rmbll.org.

Diversity at RMBL

RMBL is dedicated to the principles of equal employment opportunity in any term, condition or privilege of employment. We do not discriminate against applicants or employees on the basis of age, race, sex, color, religion, national origin, disability, sexual orientation, political affiliation, or any other status which may be protected by law.
